EU Biocide Regulations

The Biocidal Product Regulation (Regulation (EU) No. 528/2012) came into force on 17 July 2012, and the regulatory requirements for industry will apply from 1 September 2013. This new regulation includes goods and materials which are treated with biocidal products.

Regatta items treated with biocidal products must not be supplied unless all the active substances contained in the biocidal product with which the item was treated, or in which they are incorporated, are approved in accordance with this new regulation.

All items supplied to Regatta Ltd must comply with the biocide regulation.

Please note that these regulations apply to all items and components that are supplied to Regatta Ltd, DARE 2B and CRAGHOPPERS, either individually or as part of a garment. This includes all fabrics and linings, trims and accessories, and packaging (poly bags and cardboard cartons).
